SporteX TH201

SUMMER UHP

 **TRIANGLE**
Tires for Life

SporteX TH201

- Triangle **SporteX** UHP tire delivers the crisp response allowing you to master the road even in extreme conditions.
- Asymmetric pattern design provides balanced performances in both dry and wet conditions.
- Extreme driving control with improved ride comfort and lower noise level.

Three main central grooves with assisted lateral oblique groove

To maximize water drainage
Resulting in good aquaplaning and wet grip performance

Three silencer slots, high angle CL radial groove

For groove resonance reduction
Resulting in reduced new and worn tire noise

Asymmetric design with optimized pitch sequence

For improved management of lateral forces
Resulting in improved cornering stability

Optimized tread contact patch and large-block design

For large and even contact surface
Resulting in improved dry handling performance
