AdvanteXSUV TR259

SUMMER SUV

 **TRIANGLE**
Tires for Life

AdvanteX SUV TR259

- The **AdvanteX SUV** tire has been designed to meet the performance demands of today's modern SUV market.
- The SUV market is the fastest growing vehicle and tire market in the world.
- The new range provides optimum vehicle fitment coverage for today's modern SUVs.

Performance

Wet Braking

Dry Braking

5 rib tread design

- For maximum surface contact and even bear loading
- Resulting in balanced wet and dry handling performance

Additional shoulder and intermediate rib slot

- For improved shoulder stability and better water drainage efficiency
- Resulting in confident wet/dry and light snow handling performance

Closed and supported shoulder slots

- For a balanced wet/dry noise performance and handling
- Resulting in a quieter and more comfortable ride

Strategically placed sipe/blade density

- For increased biting edges and water dispersion
- Resulting in improved wear performance with comfort and good wet/light snow performance

Reinforced high reversed carcass structure

- For a reduction in carcass deformation and enhanced sidewall strength
- Resulting in improved durability and driving stability

Optimized silicon tread formula compound

- For lower rolling resistance, reduced irregular wear and shorter braking distance
- Resulting in improved fuel efficiency and quieter and comfortable driving experience
